

SEVKET CAMOGLU

Venice, Italy

sevket.camoglu@unive.it · www.linkedin.com/in/sevktcam

RESEARCH INTERESTS

My research interests include structural and empirical estimation in corporate finance, entrepreneurial finance, and banking, with a particular emphasis on alternative sources of firm financing, including private credit, private equity, and venture capital.

EDUCATION

Ph.D. in Economics, Ca' Foscari University of Venice 2023 – present

Supervisors: Prof. Stefano Colonnello (Ca' Foscari) · Prof. Lorian Pelizzon (Ca' Foscari & SAFE & Goethe) · Prof. Michael Koetter (IWH Halle)

WEFI Fellow Sep 2026 – present

Visiting Periods:

HEC Paris — Host: Prof. Matthias Efung

Apr 2026 – May 2026

SAFE, Goethe University Frankfurt — Host: Prof. Lorian Pelizzon

Oct 2025 – Mar 2026

M.Sc. in Economics (QEM), Ca' Foscari University of Venice

2021 – 2023

Thesis: “An Empirical Investigation of the Recovery Theorem: Assessing Its Accuracy and Robustness in Financial Markets”

Supervisor: Prof. Stefano Colonnello

B.Sc. in Business Administration, Başkent University, Turkey

2016 – 2021

Minor in Economics. Graduated with second-highest GPA (High Honours).

Exchange Programs:

University of the Incarnate Word, San Antonio, USA — English preparatory year (5 months)

Satakunta University of Applied Sciences, Pori, Finland — Erasmus+ (6 months)

WORKING PAPERS

Public Capital, Private Selection: Additionality in European Venture Capital

Sole-authored.

Government venture capital (GovVC) is a leading instrument of European industrial policy, yet a first-order question remains open: does it finance firms that would otherwise go unfunded, or does it merely substitute for private capital? Because venture capital is a two-sided matching market, the firms a public investor backs reflect both its own preferences and its competition with private investors—two forces that reduced-form designs cannot separate. I estimate a two-sided matching model of European venture capital (1989–2024) and re-solve the equilibrium with government investors removed. Only 24.9% of GovVC-backed firms would have gone unfunded in their absence; the remaining three quarters are re-absorbed by private capital. Recovered preferences reverse the reduced-form targeting evidence: GovVC favors high-tech firms but loses them to private competition. Weighing the value the additional firms create against the deadweight cost of the taxation that finances the whole portfolio, a public euro yields +0.18: Europe clears its break-even additionality rate of 15.5%, while no national programme does.

Nonbank Lending, Private Firms, and Credit Cycles

with Stefano Colonnello and Michael Koetter.

Using data from the U.S. syndicated loan market, we document the importance of nonbank credit for private firms. Both aggregate and micro-level tests show that nonbank lending and lending to private firms are more cyclical than bank lending and lending to public firms, respectively. The evidence suggests the growth of nonbank financial intermediation and the rising importance of private firms are tightly interlinked phenomena, raising questions about the potential of these segments to amplify the financial cycle.

WORK IN PROGRESS

Secular Decline in Syndicated Loan Market

CONFERENCE AND SEMINAR PRESENTATIONS

† *scheduled*

AFA 2027, Poster Session†, Washington,	Jan 2027
DGF 2026 Annual Meeting Doctoral Workshop, Dusseldorf	Sep 2026
Rising Scholar Conference in Finance 2026 Zurich	Sep 2026
SASCA 2026, Venice	Sep 2026
pre-EFA, Poster Session, Ghent	Aug 2026
Frankfurt Summer School, Frankfurt,	July 2026
FMA Europe Meeting Doctoral Consortium, Braga	Jun 2026
S&O Research Day, HEC Paris	May 2026
Internal Seminar, University of Groningen	Mar 2026
CREDIT 2025, Poster Session, Venice	Sep 2025
PhD Day (UniVE / UniVerona / UniPadova), University of Verona	Jun 2025
Internal Seminar, Ca' Foscari University of Venice	Jun 2025

TEACHING EXPERIENCE

All positions held at Ca' Foscari University of Venice.

Teaching Assistant, Financial Economics	Feb 2026 – Jun 2026
Teaching Assistant, Financial Mathematics	Feb 2025 – Jun 2025
Teaching Assistant, Financial Economics	Feb 2025 – Jun 2025
Teaching Assistant, Financial Economics	Feb 2024 – Sep 2024
Teaching Assistant, Microeconomics I	Sep 2022 – Dec 2022

RESEARCH EXPERIENCE

Research Assistant – Project: “Forecasting Performance and Financial Market Efficiency”

VERA, Ca' Foscari University of Venice Feb 2023 – Jun 2023

AWARDS AND SCHOLARSHIPS

Ph.D. Scholarship , Ca' Foscari University of Venice	2023
Scholarship for High-Achieving International Students & Tuition Waiver , Ca' Foscari	2021
Tuition Fee Scholarship (5-year award), Başkent University	2016
Erasmus+ Grant , Turkish National Agency	2016

PROFESSIONAL SERVICE

Scientific Committee, SasCa Conference – 2026 Edition	2026
Co-Organiser & Scientific Committee, SasCa Conference – 2025 Edition	2025

SUMMER SCHOOLS

Frankfurt Summer School (Bundesbank, SAFE & IWH) – Finance Track	<i>Jul 2024</i>
<i>Instructors: M. Weber, X. Vives, J.-C. Rochet, V. Acharya</i>	
Barcelona School of Economics – Emp. Banking and Macro-Finance; Banking Theory	<i>Jun 2024</i>
<i>Instructors: J.-L. Peydró, D. Martínez-Miera</i>	
Italian Econometric Association & VERA – Network Econometrics; Bayesian Econometrics	<i>2022</i>

PRE-PH.D. PROFESSIONAL EXPERIENCE

Volunteer, International Bridges to Justice – Geneva, Switzerland (Remote)	<i>Feb 2022 – Aug 2022</i>
Banking Intern, T.C. Ziraat Bank – Ankara, Turkey	<i>Sep 2020 – Oct 2020</i>
Academic Intern, Başkent University – Ankara, Turkey	<i>Jul 2019 – Aug 2019</i>

SKILLS AND LANGUAGES

Programming	Python, Stata
Other software	$\LaTeX$, Tableau, Gephi, Microsoft Office
Languages	Turkish (native), English (fluent), Italian (basic)
